

Parking sensor system and Millimeter Microwave Radar Camera

Parking sensor system:

- Use human voice or buzzer.
- Radar input: Digital radar sensor input.
- Two camera input is supported.
- It is designed with an aluminium alloy housing.
- Supports one video output.
- Special high sensitivity sensor, strong vibration resistance, low false alarm rate.
- It's designed for the vehicle and supports a wide range of voltage inputs. Can work stably from DC12V/24V .
- Adopts one-line bus transmission, 4/8 radar sensor, simple installation.
- Adopts digital signal transmission, strong anti-interference, will not be interfered by the engine, and the transmission distance is far, up to 5 meters.

(4 sensors or 8 sensors)

Millimeter Microwave Radar Camera:

- The millimeter microwave radar camera has a horizontal angle of 180 and a warning level distance of 3 meters. When an obstacle is found to be near, an early warning within 0.5 meters to 2 meters (beeping) shows the actual distance of the obstacle, an obstacle within half a metre, and the siren keeps making a Didi sound to alert the driver.

Mobile DVR - Harddrive Version

Specification:

- Size: 188×148×60mm
- Pattern adjustment: hd/analog;
- Suitable for: logistics trucks, vans, buses, taxis ,cars and so on;
- Video storage: support 2pcs 512 GB memory card;
- Video storage: maximum support 1TB/2 TB hard disk.
- Working voltage: 9V-36V;
- Communication function: supports 3G/4G WIFI/GPS, and other functions; Recording video images;
- Support: 4 channel /8 channel change automatically.

4 channel: BY-08927MDVR
5 channel: BY-08928MDVR
8 channel: BY-08929MDVR
9 channel: BY-08930MDVR
(support 512GB SD card)

4 channel: BY-08910MDVR
5 channel: BY-08911MDVR
8 channel: BY-08912MDVR
9 channel: BY-08913MDVR
(1TB/2TB hard disk optional)

UNIQUE FEATURE

- Support HD/AHD monitor and CCD/CMOS/AHD camera.
- Support configuration function of reverse mirror image.
- Built-in super capacitor, to avoid data loss and disk damage because of abnormal power off.
- Support management identification of intelligent power, low power and shut down automatically, turn off and low power consumption.

4G camera for Anti-theft oil

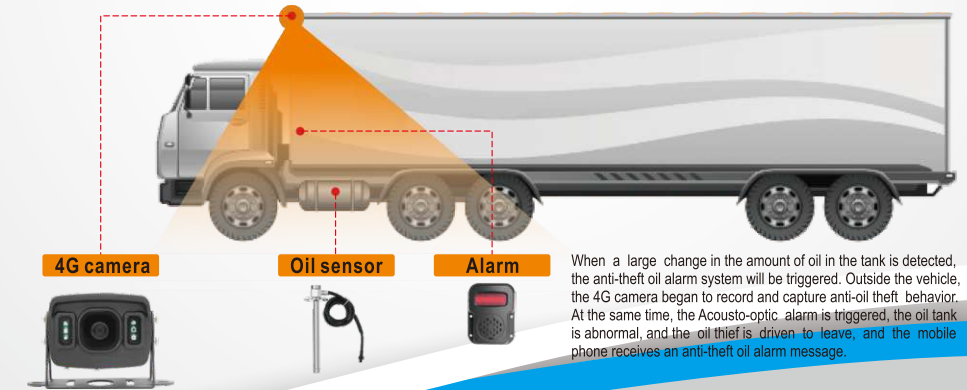

Specification:

- Product features 3MP HD resolution;
- Built-in high-performance image processing chip, H.265 encoding, high compression ratio, clear image;
- Support TF card storage, maximum support 256G;
- Loop recording, automatically covering the earliest recording;
- Support GPS, Beidou positioning;
- Support domestic 4G network and overseas 4G network;
- Support mobile phone/computer real-time remote monitoring;
- Supports connection of oil sensing, temperature sensing, load and other peripherals.

[Besyo] Received a new alarm,
vehicle: Yue B3**2,
Alarm type: Abnormal oil,
Alarm time: 2023-02-16 10:37:28,
Address: Hanghang Road,
Baoan District, Shenzhen,
Guangdong, China
Alarm description:
vehicle oil abnormal alarm.

4G camera

Oil sensor

Alarm

When a large change in the amount of oil in the tank is detected, the anti-theft oil alarm system will be triggered. Outside the vehicle, the 4G camera began to record and capture anti-oil theft behavior. At the same time, the Acousto-optic alarm is triggered, the oil tank is abnormal, and the oil thief is driven to leave, and the mobile phone receives an anti-theft oil alarm message.
